Re: *San Juan River Basin Adjudication/Case No. CV-75-184 and Subfile AB-07-1*

Dear Judge Wechsler:

This letter follows the Memorandum Opinion and Order signed by you and filed with the Court on November 30, 2011. I am writing to remind the Court that there are still pending separate, but related, motions that were submitted to the former Special Master and upon which he heard oral argument.

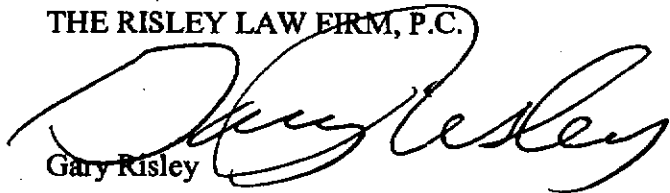

On July 20, 2011, Victor Marshall filed a pleading labeled Motion for Immediate Hearing and Ruling on Notices of Intent to Participate and Appearances. The undersigned and others responded by filing objections to r. Marshall's then-current Entry of Appearance.

The Court's Order and the Special Master's earlier telephonic hearing addressed Mr. Marshall's Entry of Appearance that was filed on July 5, 2011. Still pending, however, are the Motions to Strike and for Sanctions filed by the State of New Mexico and the undersigned with regard to comments made by Mr. Marshall in pleadings related to the Objections that were filed. Oral argument was heard by the Special Master on September 13, 2011, but he did not render a ruling on those Motions prior to his resignation.

It is requested that the Court review the pleadings and the oral arguments and rule upon those Motions.

Yours truly,

THE RISLEY LAW FIRM, P.C.
